

FURZONE PREMIUM CLIPPER BLADES

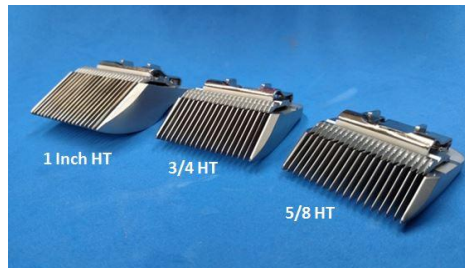

The Furzone 610 clippers, and the Furzone blades. If you ever try a Furzone blade, you will never buy any of those other blades you've been using again. In 37 years of grooming I've used every blade made, and the great blades that they made years ago are gone forever until now. Furzone blades are just as good or better than the blades we used 25 years ago. If you take care of them by oiling properly and cleaning them, the edge should last 6 to 9 months. They last that long in my shop, and we clean and oil our blades. They cut the smoothest in the industry because of the 22 tooth cutters they have on them, the rest of the blades out there have an 18 tooth cutter which leaves tiny lines in the coat. Here is a link to my website, take advantage of this pricing. They work on any clipper made today. YES THEY FIT YOUR ANDIS CLIPPER. We take Visa, MC, Dis and PayPal. (PayPal orders we need your zip code and PayPal email address). Orders to US only.

Furzone 9 Piece Comb Sets are \$40.00 a set

FREE SHIPPING on FURZONE PRODUCTS (Clippers and Comb sets) TO USA ONLY, NEED ZIP CODE. On ordering blades alone, a minimum of 4 or more to qualify for free shipping. No mixing with non-Furzone products for free shipping.
