Exp Date:

Last 3 #s on Back:

WHAT KIND OF CLIPPERS DO YOU USE? \_\_\_\_\_

\*\*\* Please read the info on the "Mail-in Service" page about [clipper repair](#) or [maintenance](#) so you know the difference. IVAC's are hardwired for \$30, or free with your regular sharpening. Regular sharpening is 15 items.

IF PARTS ARE NEEDED DO YOU WANT TO PREAUTHORIZE THIS, OR DO YOU WANT ME TO CALL FIRST BEFORE INSTALLING NEW PARTS?  
(Calling extends the time for order to back go out)

PLEASE CIRCLE ONE:            **PREAUTHORIZE**            **CALL FIRST**

IS THE TENSION ON YOUR SHEARS OK NOW ?

*We set the tension on regular shears so that the scissor blades start to touch 3/4 of an inch from the tips. This amount tension is acceptable and works the tips of the shears more. We can set them differently but everyone has a different grip, and its OK to take a screwdriver yourself and "fine tune" a tension that's correct for your grip and the style you scissor. Many groomers prefer to do this final adjustment themselves. It's not always the sharpeners job.*

ANY PROBLEMS WITH ANY ITEMS BEING SENT? (Explain Below)

- BLADES NOT DIGGING INTO THE FUR (*Do clipper Maintenance. Make sure the blade drive on the Andis is new. Change every 4-6 weeks*)
- SCISSOR PROBLEMS (Folding hair, bent, sticking, etc.)
- ANYTHING I SPECIFICALLY NEED TO KNOW
- WHAT ARE THE CLIPPERS DOING (noise, motor problems, etc)
- EXPLAIN THE PROBLEM:

**IF WE TALKED ON THE PHONE ABOUT ANYTHING, PLEASE DETAIL IT HERE.**

(I won't remember our conversation because I talk to many groomers every day and I don't write it down.)

There is a shipping label below, cut out and tape to box.

Be sure that everything is packed tightly in the box using bubble wrap or newspaper, and when you shake the box nothing rattles.

Make sure any box on the inside of the outer box is either taped shut or has rubber bands around it. Your blade box may open up in transit if the top isn't secured.

Use the US Post Office and ship "Priority Mail". Get "Confirmation Delivery" as well for a few cents extra.

To save money you may want to use one of the Flat Rate<sup>®</sup> boxes the Post Office offers that has a flat rate to any domestic state no matter how much it weighs. When shipping a lot of stuff, or including clippers, use the flat rate box to save postage.

***\*\* DO NOT USE A SMALL FLAT RATE BOX TO SHIP MORE THAN 6 – 8 VERY WELL WRAPPED BLADES. IT WILL BURST OPEN IF DROPPED OR THROWN BECAUSE THE CARDBOARD CONSTRUCTION IS VERY THIN. \*\****

This is: **Small Flat Rate Box**  
Size: 5 3/8" x 8 5/8" x 1 5/8"

This is: **Medium Flat Rate Box**  
Size: 11" X 8.5" X 5.5"

This is: **Large Flat Rate Box**  
Size: 12" X 12" X 5.5"
